GLOBAL LEADERS IN INTEGRATED SECURITY & FIRE PROTECTION

75 Million Euros were the reported losses by TAPA in 2014, whilst in the UK there was a 98.8% increase in incident year on year compared to 2013.

TFS Group are experts with a vast experience in logistics security solutions, we can provide dynamic cutting edge solutions for HUBs and Logistics Centres to ensure the business keeps safe its assets and reputation whilst they are within their care, ultimately we can potentially save hundreds of thousands of pounds for a business in this area.

Integrated security solutions drives better and faster business decisions by collecting and analysing raw data from multiple sources and turning that data into action-oriented information. Comprehensive, timely and intelligent information empowers end-users to automate and improve business decision-making processes. This results in increased security, reduced costs, enhanced productivity and greater profitability.

The criminals are now targeting the much easier and softer target of goods which if not secure the goods can easily be turned into cash, in many cases the value of the goods can be far more lucrative in the long run than cash.

The impact on the business resulting from losses or damages of goods can be crippling, Integrated Security Solutions which can be provided by TFS Group will help management and ultimately save the business money.

TYPICAL APPLICATIONS INCLUDE:
HUBs and Logistics Centres, Storage Facilities,
Bonded Facilities, Airports, Ports, Supermarkets.

TFS Group can provide Integrated Security Solutions for HUBs & Logistics Centres a combination of CCTV, Access Control which is integrated into the businesses other operations such as scanners and bar code readers where video associated with an individual box or piece of equipment can be retrieved in seconds without have to trawl though endless hours on video footage, for example proof of non-damaged equipment can be viewed whilst the reporting person is on the phone live.

Provide Real Time information to assist in the management of the business

Provide Proof that goods actually entered the vehicle from the logistics HUB

Reduce insurance claims in relation to lost or damaged goods and reduce premiums

Provide Proof that the goods were undamaged when leaving HUB

Reduce losses and disruption to business as a result

Re-assurance to clients that their assets are held in the facility with the utmost of security
